

REAL ESTATE MINOR

INTRODUCTION

The **Real Estate Minor** is designed to provide students with comprehensive exposure to the field of real estate. It is open to all undergraduate students across the University of Washington.

Students in the **Real Estate Minor** will develop technical, statistical, and analytical skills that will enable them to interpret data across a wide range of topics. This analysis will aid in addressing many of the challenges facing the world today. The interdisciplinary nature of real estate will be highlighted throughout the minor and in a variety of learning environments that students will encounter.
