2.6 LONG-TERM RESEARCH ACTIVITIES

- O7. Consulting Evaluation of Local Zoning and Land-Use Policy in Puget Sound
Urban Institute Metropolitan Housing and Communities Policy Center
Principal Investigator: Mary Cunningham, Urban Institute
Project Manager: Yonah Freemark, Urban Institute
Project Duration: 2022 – 2023
- I provide consulting services and support to Urban Institute in connection with this project. Amazon provided funding for this initiative.
- O6. Evaluation Evaluation of Conflict Resolution Services intervention.
Principal Investigator: Gregg Colburn
Project Duration: April 2022 – Present
- A partnership between the UW Mediation Clinic, the King County Dispute Resolution Center and Housing Connector will deliver mediation services for tenants who receive support from Seattle Housing Authority. This study will evaluate the effects of mediation services for a range of conflicts involving recipients of housing assistance from Seattle Housing Authority.
- O5. Evaluation Evaluation of State of California’s Project Roomkey homelessness initiative
Principal Investigator: Abt & Associates
Project Duration: June 2021 – Present
Grant Funding: California Health Care Foundation and Conrad N. Hilton Foundation
- I am serving as a special advisor to Abt & Associates as they evaluate Project Roomkey in California.
- O4. Evaluation Jobs and Housing Program (King County, WA)
Principal Investigator: Gregg Colburn and Rachel Fyall
Project Duration: June 2022 – Present
Grant Funding: Program funding (including evaluation) from the federal Coronavirus Local Fiscal Recovery Funds
- In this project we will evaluate the Jobs and Housing program implemented by King County. A key focus will be on lessons learned for future funding of this program and whether benefits of the intervention are sustainable for program participants.
- O3. RDC Project Housing Choice Voucher Program Outcomes (National)

Principal Investigator: Rebecca J. Walter
Co-Principal Investigators: Arthur Acolin, Gregg Colburn, Kyle Crowder, Christian Hess, Ruoniu (Vince) Wang, Alex Ramiller, and Philip Garboden.
Project Duration: August 2019 – Present (data access for a period of 5 years)
Grant Funding: May apply for funding in the future

This project analyzes the mobility patterns and locational/socioeconomic outcomes of Housing Choice Voucher households during their tenure in the program and pre/post voucher receipt using restricted HUD administrative data and restricted Census data. The proposal has been approved by the U.S. Census Bureau.

O2. Study

Impact of Hotels as Non-Congregate Emergency Shelters (King County, WA)
https://kcrha.org/wp-content/uploads/2020/11/Impact-of-Hotels-as-ES-Study_Full-Report_Final-11302020.pdf

Principal Investigator: Gregg Colburn and Rachel Fyall
Co-Principal Investigator: Christina McHugh, Pear Moraras, Samantha Thompson, Taquesha Dean, Victoria Ewing, and Sarah Argodale
Project Duration: April 2020 – June 2021
Grant Funding: Bill & Melinda Gates Foundation, UW Population Health Initiative, COVID-19 Economic Recovery Research Grant, Urban@UW

This study evaluated King County’s COVID-19 homelessness response in which people were moved out of congregate emergency shelters into hotel and motel rooms. The findings found that the intervention was successful at limiting the spread of COVID-19 among the shelter population—its primary goal—and it also provided a range of other health and well-being benefits.

O1. Copyright/ Software Application

Opportunity Housing Locator (National)
Principal Investigator: Ruoniu (Vince) Wang
Co-Principal Investigators: Rebecca J. Walter, Gregg Colburn, Arthur Acolin, and Kyle Crowder
Project Duration: November 2015 – June 2021
Grant Funding: San Antonio Area Foundation 2016, 2017 and Jessie Ball duPont Fund 2015 - 2017

The Opportunity Housing Locator is a software application for public housing authorities. It was developed as a joint partnership between researchers and public housing authorities to help households locate suitable affordable rental housing. The Locator customizes rental apartment searches based on user preferences. The application is specifically designed to help voucher households find housing. Users of the application enter information about places they want/need to live by, and neighborhood preferences based on factors such as the quality of schools or access to parks. The Locator provides a list of rental units available based on the requirements of the voucher, and a map that ranks neighborhoods on a scale from most suitable to least suitable based on user preferences.
